### THE YARN

- Made From Ultra-High Tenacity POLYTIT Yarn
- Higher strength for better performance
- High abrasion resistant

### THE NETTING

- Made from Japanese Netting Machine
- Uniform mesh & high knot stability
- Better Drape

### THE POLYTIT ADVANTAGE

## THE COMPANY

Nirmala Group established in 1988, are today the largest manufacturers and exporters of **Polyamide (Nylon) Fishing Lines, Fishing Nets, Fishnet Twines** and **Industrial Monofilaments** in India. We manufacture **High Density Poly Ethylene (HDPE)** extruded with POLYTIT Technology and **Polyamide (Nylon)** nets conforming to the highest global standards.

More than two decades of experience in the fishing Industry has resulted in leading the Nylon fishnet Industry in India. We provide netting with the best attributes & features, globally, to a satisfied clientele.

Besides fisheries, we also cater finest polyethylene and polyamide netting products to diversified applications in the areas of **Agriculture, Aqua-culture, Sports and Safety nets.**
